I'm very sorry for the delay in sending these to you. Hopefully they don't require many revisions from you. If you have any questions or concerns, call me on my cell: Ex. 6 Personal Privacy (PP)

A few quick points to note

- I recycled much of the TPs from R5 RTOC.
- I spoke to Scott and he wanted to make a general statement on McGirt. I may have gone to deep and I understand if you need to redline much of it.
- I did not address the R6 specific issues like Los Alamos Air emissions. If that should be in there, let me know and I'll do the research and put something together.

-Will
